

Government-Feed Vehicle and Plate Report

Timestamped analytics output from the organizer-provided camera feed. Every identity claim remains subject to the fixed multi-frame evidence gate.

OFFICIAL CAMERA	DECODED FRAMES	VEHICLE TRACKS	PLATE CANDIDATES	IDENTITIES ACCEPTED
1	8	24	29	0

Decision

ABSTAINED - no plate identity or automatic alert. Three quality-selected plate candidates remain available for review because none satisfied exact, multi-frame consensus.

Vehicle detections

Vehicle class	Tracks
Bus	2
Car	13
Motorcycle	7
Truck	2

Timestamped plate candidates

Source PTS is exact. UTC is derived from the HLS program-date-time anchor and carries +/- 2.0 seconds uncertainty.

Track	Class	UTC time	PTS / timebase	Crop	Outcome
3	Car	2026-08-30T18:19:03.005000Z	2513700 @ 1/90000	56 x 26 px	Review only
5	Car	2026-08-30T18:19:03.485000Z	2556900 @ 1/90000	46 x 14 px	Review only
2	Car	2026-08-30T18:19:04.205000Z	2621700 @ 1/90000	63 x 31 px	Review only

Observation window: 1.680 source seconds; UTC anchor 2026-08-30T18:19:03.005000Z; transport HLS.

Evidence integrity and claim boundary

This report proves that the production analytics path decoded an official feed, tracked vehicles, localized plate candidates, and retained source timestamps. It does not turn an unreadable crop into an identity.

Provenance

Field	Value
Evidence class	government_feed_vehicle_plate_timestamp_report
Official feed	Yes
Synthetic fixture	No
Source evidence SHA-256	64621c8f4c62f944571e2e9e03e704cb57e95a5236331978c3756edad5403623

Limitations

- One official camera and a short observation window; not a coverage or route test.
- Source PTS is exact; UTC is HLS program-time anchored with stated uncertainty.
- No track satisfied the fixed multi-frame identity gate, so no plate identity or alert is claimed.
- Candidate crops are reported as review evidence, not vehicle identity proof.

Operator rule

No exact multi-frame identity means no automatic alert. The safe result is INSUFFICIENT EVIDENCE, with the timestamped candidates preserved for review.
